TO: LICENSED HEALTH CARE PROFESSIONAL* –

The above-named individual has applied for or is currently receiving services from the In-Home Supportive Services (IHSS) program. State law requires that in order for IHSS services to be authorized or continued a licensed health care professional must provide a health care certification declaring the individual above is unable to perform some activity of daily living independently and without IHSS the individual would be at risk of placement in out-of-home care. This health care certification form must be completed and returned to the IHSS worker listed above. The IHSS worker will use the information provided to evaluate the individual's present condition and his/her need for out-of-home care if IHSS services were not provided. The IHSS worker has the responsibility for authorizing services and service hours. The information provided in this form will be considered as one factor of the need for services, and all relevant documentation will be considered in making the IHSS determination.

IHSS is a program intended to enable aged, blind, and disabled individuals who are most at risk of being placed in out-of-home care to remain safely in their own home by providing domestic/related and personal care services. IHSS services include: housekeeping, meal preparation, meal clean-up, routine laundry, shopping for food or other necessities, assistance with respiration, bowel and bladder care, feeding, bed baths, dressing, menstrual care, assistance with ambulation, transfers, bathing and grooming, rubbing skin and repositioning, care/assistance with prosthesis, accompaniment to medical appointments/alternative resources, yard hazard abatement, heavy cleaning, protective supervision (observing the behavior of a non-self-directing, confused, mentally impaired or mentally ill individual and intervening as appropriate to safeguard recipient against injury, hazard or accident), and paramedical services (activities requiring a judgment based on training given by a licensed health care professional, such as administering medication, puncturing the skin, etc., which an individual would normally perform for him/herself if he/she did not have functional limitations, and which, due to his/her physical or mental condition, are necessary to maintain his/her health). The IHSS program provides hands-on and/or verbal assistance (reminding or prompting) for the services listed above.

**Licensed Health Care Professional means an individual licensed in California by the appropriate California regulatory agency, acting within the scope of his or her license or certificate as defined in the Business and Professions Code. These include, but are not limited to: physicians, physician assistants, regional center clinicians or clinician supervisors, occupational therapists, physical therapists, psychiatrists, psychologists, optometrists, ophthalmologists and public health nurses.*
